

ACTIVITY SHEET

UNDERSTANDING AND BUILDING OUR WORLD AND OUR STORIES TOGETHER

At the Stewart Museum, we use objects, stories and shared experiences to help our visitors better understand the world around them, no matter their age or background. With our **participatory approach** and our **civic perspective**, we prioritize **observation, interrogation, and dialogue** in our activities.

Type of activity: Visit

Activity title: History and Memory

Target audience: All audiences

Educational area: Social sciences

Length: 45 minutes

Description of the activity

Spanning more than five centuries, History and Memory features themes that range from navigation and maritime trade to day-to-day life in New France. This tour offers various points of view on objects that bear witness to Indigenous, French, British and American history, a journey into the collective memory of Quebec.

Strategies

- Observation
- Association
- Collaborative games

Attitudes developed

- Critical thinking
- Cooperation
- Self-actualization
- Creativity

Major themes addressed

- **Open-mindedness**
In the effervescence of large city centres, cultures mix and mingle. Ways of living, being and doing enrich each other. From this diversity, emerge curiosities that are the source of renewed dialogue.
- **Transforming the world**
Humans have always wanted to control their environment by creating machines, devices, objects and new techniques. These inventions enrich our daily lives and transform our relationship to the world.
- **Exodus and belonging**
Shaken by wars, climate changes or poverty, migrants move towards a better future. Exodus means abandoning familiar places, experimenting new ways of life and ultimately, stand firm in the sense of belonging to a new adoptive country.
